Vertical Baler

REI provides the most innovative and versatile balers in the industry, featuring the right components for successful baling. Our strong frames come with a lifetime warranty. Our high pressure compaction force creates the high bale density you need with energy efficient hydraulics.

*Since 1994, **REI** has proudly offered products designed to make a measurable difference in safety, energy consumption and our environment, while providing performance and durability.*

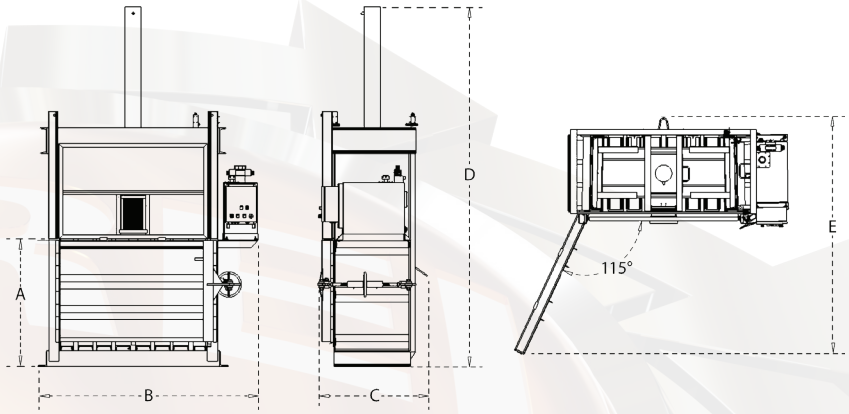
THE NEW WAVE OF EXCELLENCE

Vertical Baler

V-Series L x D x H (inches)					
Model	**A**	**B**	**C**	**D**	**E**
V630CC	49.5	88	43	135	93
V73HD	49.5	99	43	144.5	104
Please refer to drawings for location of A, B, C, D and E.					

REI Vertical Balers are engineered with heavy steel throughout and fixture welded components. All **REI** Vertical Balers produce high density bales of a wide variety of materials in a single baler.

Multi-material machines are capable of baling paper, plastic, fiber, OCC and non-ferrous metals and other commercial applications.



IDEAL FOR:

- Grocery Stores
- Home Retailers
- Big Box Retailers
- National Accounts
- Commissaries
- Warehouses
- Distribution Centers
- Hospitals, Schools & Universities

GENERAL SPECIFICATIONS - V SERIES		
Model	**V630CC**	**V73HD**
Bale Weight (lbs) OCC	up to 1,000	up to 1,300
Bale Weight (lbs) Plastic Film	up to 1,000	up to 1,300
Nominal Bale Size (in)	60 x 30 x 48	72 x 30 x 48
Average Cycle Time (sec)	49	49
Bale Volume (cu ft)	50	60
Hi Efficiency TEFC Motor (HP)	10	10
Pump GMP	10.5	12
System Pressure (psi)	2,000	2,200
Compact Force - Normal / Max (lbs)	56,548 / 62,172	62,203
Cylinder Bore (in)	6	6
Cylinder Stroke (in)	42	48
Hydraulic Tank Capacity (gallons)	22	22
Loading Height (in)	54.50	49.5

ALL MODELS MEET OR EXCEED ALL EXISTING ANSI & OSHA SAFETY STANDARDS AND ARE TOTALLY 100% ETL & CETL APPROVED.

***REI** reserves the right to modify these specifications without notice or liability to previously sold machines.*
