FOR IMMEDIATE RELEASE

Recycling Equipment Inc Acquires Midwest Recycling Equipment

REI EXPANDS FOOTPRINT WITH ACQUISITION OF MRE
STRENGTHENING NATIONWIDE PRESENCE.

Recycling Equipment Inc, headquartered in Newton, NC, has acquired Midwest Recycling Equipment located in La Porte, IN. REI will now be operating out of four locations – Newton, NC, Fort Worth, TX, Souderton, PA and La Porte, IN.

REI CEO, Dean Burrow
“Bringing Midwest Recycling Equipment into the REI family is a strategic investment in our customers. This acquisition expands our service, parts and installation capabilities throughout the Midwest while creating a dedicated hub for refurbished equipment. It’s another step in our commitment to delivering industry-leading support and turnkey recycling solutions across North America.”

About Midwest Recycling Equipment
Midwest Recycling Equipment, located in La Porte, IN, is a trusted provider of recycling and waste handling equipment, serving customers throughout the Midwest and beyond. The company specializes in new and pre-owned balers, compactors, conveyors, shredders and complete material handling systems, helping businesses maximize efficiency while reducing operating costs. Backed by experienced sales, service, parts and installation teams, MRE delivers customized solutions for a wide range of industries, with a strong commitment to reliability, customer support and long-term partnerships.

REI VP of Business Development & Marketing, Cameron Cecil
“We’ve experienced tremendous growth throughout the Midwest, along with increasing demand for high-quality refurbished recycling equipment. Adding a location in Indiana gives us the ability to stock, refurbish and deliver equipment faster than ever, helping our customers get the reliable solutions they need without the long lead times.”
